Electric Pallet Trucks

MPB045VH

The MPB045VH is much more than a walkie, add a mini mast with forks that can lift up to 31 inches. The supplementary forks will lift to 31 inches for loads up to 1500 pounds, allowing the operator to work at the most comfortable height when handling goods, picking, or replenishing stock at low shelf heights.

MPB045VH

- Ergonomic advantages
- Smart features
- Durable construction
- Direct store delivery (DSD) package
- Designed for the toughest conditions

MPS30UX

- Compact and lightweight design
- Powered traveling, lifting, and lowering
- Efficiency is tripled over a hand pallet truck
- 6-second battery exchange; suitable for continuous operations
- Re-charge alert

YA55-PT

- Heavy 1.25" thick steel adjustable push rod
- 2.1" thick steel C-channel
- 8" long reinforcing bars
- 9" handle base support
- 10 full pump strokes to reach maximum lift

Order Pickers

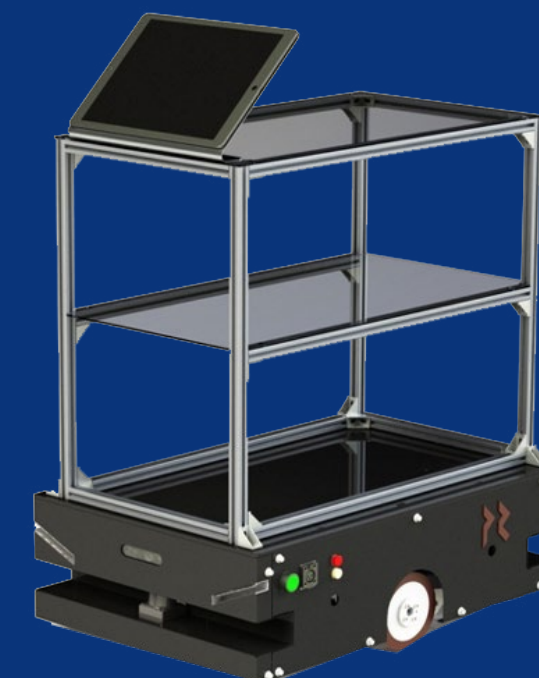

Sidewinder

- Functional, dual-hand operating system provides full control of unit
- Electric power steering increases maneuverability in tight spaces
- Inbuilt Charger – fitted with standard 110V Wall plug
- Self-diagnostic process with multifunction gauge
- Advanced AC drive motor and powerful traction control technology

BG ZERO

- Powered front load tray
- Electronic power steering
- Forward facing blue light
- Rear flashing warning light
- Battery discharge indicator w/hour meter

RM250

While your employees can use their expertise to prepare kits in stores, let the RM250 handle the heavy lifting by autonomously picking and delivering them to wherever they're needed on the shop floor on demand.

Electric Walkie Stackers

Electric Walkie Straddle Stacker

- Bottom-mounted tiller handle optimizes operating position and keeps steering effort low
- Centralized controls, with all functions located within easy reach on the handle
- Wraparound traction reversing switch provides large area of contact for secure, precise control

COMBI CS

- Power Steering
- AC Motor Technology
- Rear Wheel Drive
- Patented Multi-Position Tiller Arm

Boa 2000

- Best capacity at height retention in this style of stacker
- All the benefits of a counterbalance forklift but will work in a narrow aisle space
- Advanced AC motor and drive control technologies
- Super quiet, efficient transmission system offers extremely quick response time
- Self-diagnostic process with multifunction gauge

Alta EnviroScrub

Alta walk-behind scrubbers prioritize smart performance, simple design, and user-friendly operation for cleaning medium to large sized facilities.

AES26D-30D

- 5 years parts and 2 years labor warranty
- Tools free daily maintenance
- Traction drive to reduce operator fatigue
- 26-30 inch traction drive walk-behind scrubber

AES20D

- High capacity 16 gallon solution and recovery tanks
- 20 inch traction drive walk behind scrubber
- Maximum cleaning productivity
- 5 years parts and 2 years labor warranty

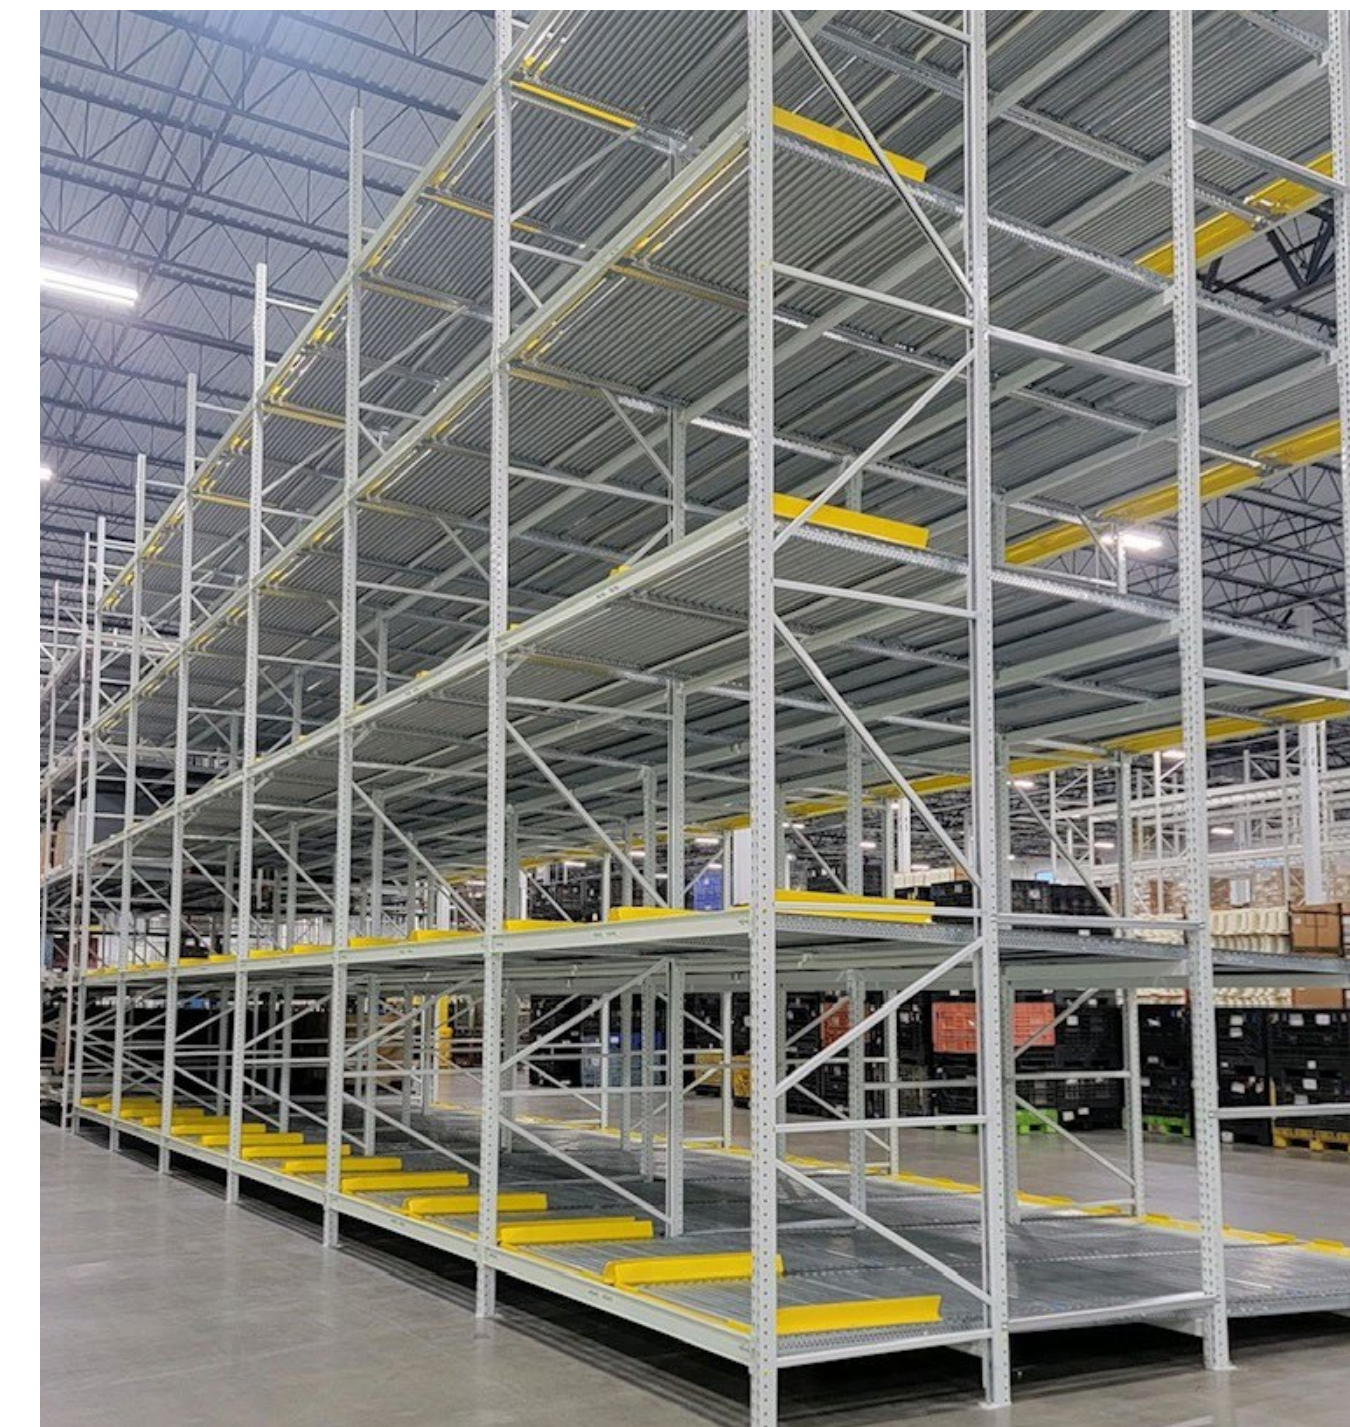

Racking & Shelving Solutions

Are you getting the most out of your current storage space? If not, we can help. Whether you're looking for a pallet rack solution to increase storage space, speed up pick times, or maybe even make your space more organized, we have the perfect solution for you.

All Types of Pallet Racking at Alta Material Handling

- Carton Flow
- Single Selective
- Double Deep
- Drive-In
- Pushback
- Pallet Flow
- Cantilever
- Pick Module
- Industrial Shelving

Conveyor Systems

Conveyor systems offer the highest standard in quality and reliable performance. We continuously lead the way in conveyor technology by offering the broadest range of solutions. With a reputation for delivering cost-effective systems that give years of reliable service in large or small applications, why choose anyone else for your conveyor project?

Features

- Lower handling costs for repetitive tasks
- High performance and quality
- Integrated material flow controls
- Efficiently moving products between processes
- Accumulation without line pressure
- Merging and diverting for balanced workload
- Latest controls technology

ALTA Dock & Door

Whether you're looking for products to increase safety, speed up loading, or make your operation more energy efficient, we'll help you pick the right equipment. We offer comprehensive loading dock products and equipment for any operation, including:

- Loading Dock Equipment
- Commercial Overhead Doors
- Energy Saving Products
- Fire & Smoke Safety Equipment
- Security Equipment
- Safety Equipment

Dock Levelers

Dock levelers bridge the gap and height difference between the dock and the trailer. They also minimize product spills, wear and tear on equipment, and the strong vibrations which cause chronic back and neck injuries for forklift operators. A dock leveler includes a hinged ramp (hinged along its rear edge) and a lip (hinged at the front of the ramp).

Dock Lifts

Make your dock totally accessible, increase productivity and improve safety with dock lifts. Dock lifts make it easy to move product from the truck bed onto the ground while keeping your employees safe and reducing chances for product damage. Available in a wide variety of sizes and weights capacities for many operations.
